Station Manager  
Former Exxon Service Station 7-0276  
1400 Farmers Lane  
Santa Rosa, California 95405-7502

**SUBJECT** Notification of Drilling Activities  
Former Exxon Service Station 7-0276  
1400 Farmers Lane, Santa Rosa, California

To Whom It May Concern:

At the request of Exxon Mobil Corporation (Exxon Mobil), Environmental Resolutions, Inc. (ERI) is notifying you of upcoming field work at the subject site. Field work will include drilling seven off-site borings (B27 through B29 and B31 through B34), and collecting soil and groundwater samples from the borings. Boring locations are shown on the attached Generalized Site Plan. Work is being performed at the direction of the California Regional Water Quality Control Board, North Coast Region. Field work is scheduled to occur May 16, 2006, through May 19, 2006.

Soil cuttings and rinsate water from drilling activities will be placed in 55-gallon drums and stored at the site pending characterization and disposal. Upon receipt of laboratory analytical results of soil samples from the drums, ERI will coordinate with Exxon Mobil for disposal of the soil and water. ERI appreciates your cooperation to ensure that field work occurs safely and efficiently and will minimize disruptions to station operations while on site.

Please call Ms. Paula Sime, ERI's project manager for this site, at (707) 766-2000 with any questions regarding the work.

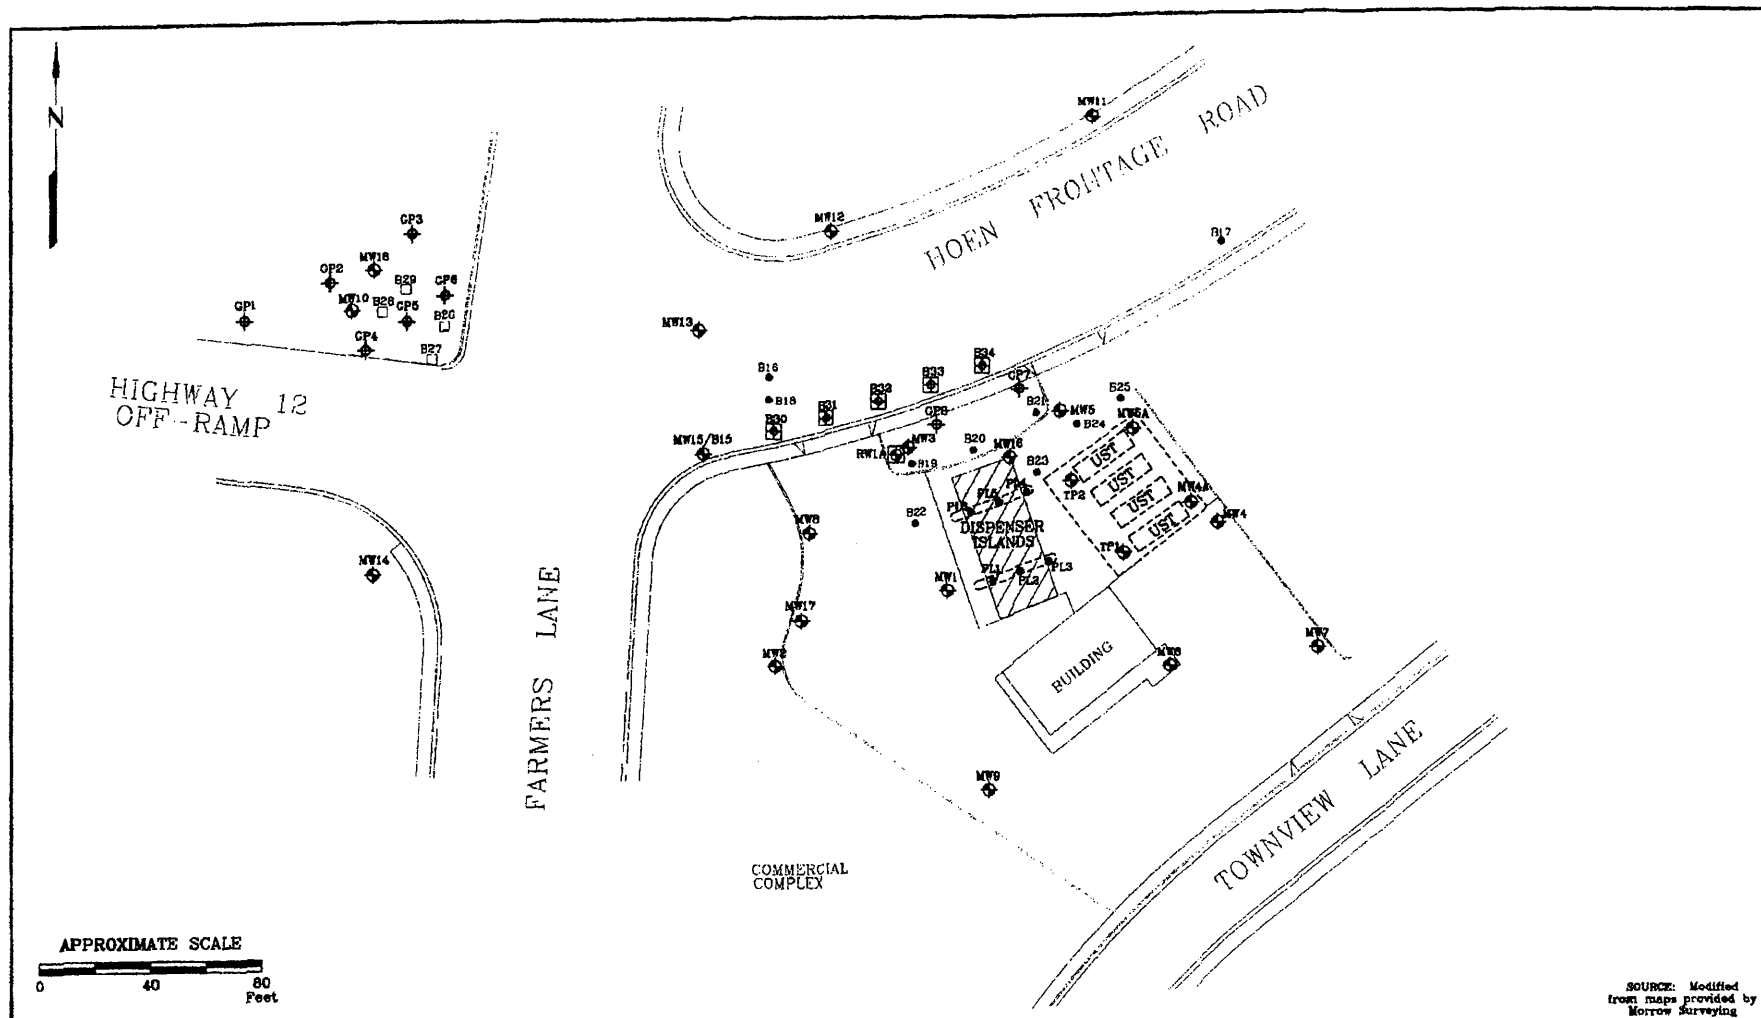

Sincerely,  
Environmental Resolutions, Inc.

Rebekah A. West  
Senior Staff Geologist

Paula Sime  
Project Manager
